

## Gulf Shores Floorplans

All units at Gulf Shores are beachfront and have a large balcony for relaxation. The spacious beachside bedroom usually has two queen beds and the front bedroom has a king-sized bed.

All units have two full bathrooms with combination tubs and showers. The kitchens in every unit are fully equipped with cooking and eating utensils, stove with oven, microwave, disposal, and dishwasher. There are large closets in the bedrooms plus one or more other closets for storage.

**Important Note:** The bedding arrangement for each condo is unique to that unit. We will attempt to honor specific requests for bedding arrangements but cannot guarantee specific units. All units, however, will accommodate up to six people, including children.

Since each unit is owned by different owners, the decor will vary from unit to unit. Please view the unit photo galleries on the main menu (or [click here](#)) for photos and descriptions of some of the units.
